

DSP 3.4 GRAZING SYSTEM LIME

- ☐ A Vendor Input/ACH-EFT Application must be completed before a contract may be created. This form allows a 1099-G to be submitted to you at the end of the year. It also allows for your reimbursement to be sent to your account electronically once your project is completed.
- ☐ Cooperator must have an approved grazing plan prior to contract board approval.
- ☐ A system may be approved for land where livestock do not currently graze as long as the system is in use by livestock within the first year after meeting the Prescribed Grazing standard and specification. The practice must then be maintained for five years.
- ☐ Cost share is authorized for lime application on existing systems that meet NRCS standard and specifications for Prescribed Grazing.
- ☐ Cost share is authorized for a one time application of lime in accordance with a current soil test.
- ☐ If soil test requires an application of greater than 1500lbs of ENM per acre, the cooperator is only required to apply a minimum of 1500 lbs of ENM per acre.
- ☐ Cost share may be provided for more than 1500lbs of ENM, not to exceed the maximum of \$50 per acre.
- ☐ If lime is applied in split application when large amounts of ENM are required, the contract must remain unpaid until all lime is applied.
- ☐ Cost share is not authorized for lime if a N590 Nutrient Management Plan was previously completed.
- ☐ Cost share is limited to 75% of the established county cost. Maximum cost share is \$50 per acre. For one time application of limestone in accordance to the soil test recommendations for a planned grazing system.
- ☐ The entire grazing system must meet the standard and specifications for Prescribed Grazing within three years after payment of the first contract or the entire amount of cost share received must be repaid.
- ☐ I certify that I have not started the practice. I understand that if I begin the practice before I receive official notification of approval from the district board I am not eligible to receive cost-share assistance for completing the practice.
- ☐ I understand that the district board of supervisors must approve any modification in the design of the practice. Failure on my part to request changes and obtain board approval of the changes may jeopardize my cost-share payment for the practice.
- ☐ I understand that I am not eligible to receive payment for installing the practice until it meets NRCS Standards and Specifications within Commission policy.
- ☐ Once claim has been signed and approved it will take approximately 4-6 weeks before the reimbursement is issued to your account.

I have read the above cost share policies and procedures and understand them. I assume full responsibility for all expenses incurred if I fail to follow these policies and procedure.
